# SEEKING INTERESTED STUDENTS FOR AmeriCorps Community Health Fellowship Program

## IN PARTNERSHIP WITH NNCC!

The National Nurse-Led Care Consortium (NNCC) is a national nonprofit, member-supported organization working to strengthen community health through quality, compassionate, and collaborative nurse-led care.

Our mission is to advance nurse-led healthcare through policy, consultation, and programs to reduce health disparities and meet people's primary care and wellness needs.

NNCC is proud to be the sponsoring organization for the AmeriCorps program, recruiting and placing members throughout Pennsylvania communities.

For more information about AmeriCorps, visit [americorps.gov](http://americorps.gov)

**AmeriCorps is a national service initiative focused on building capacity and advancing equitable outcomes in communities.**

Nursing students will be placed at Federally Qualified Health Centers (FQHCs) or community organizations throughout Pennsylvania. Participants are expected to serve 7-8 hours per week over the course of the semester. There's also an opportunity to capture community clinical hours for school.

### During the fellowship, students will receive:

- Training & real-time experience focused on Structural Determinants of Health
- Educational award is provided upon completion of program
- Networking & professional development

### Qualifications:

- Pursuing a nursing or health care degree
- GPA of 3.0 or higher
- Strong interest in community health
- Available during the weekday
- Must be open to serving in underserved areas
- Ability to travel to and from assigned community based organization

interest form!**

# TESTIMONIALS

Denise S., AmeriCorps Alum 22-23, Served with Rock Ministries in Kensington, Philadelphia

*"I serve with AmeriCorps because I want to strengthen my community and build relationships with members of my community. I also want to be a familiar representative that embodies perseverance, integrity and redemption."*

Maniya E., AmeriCorps Alum 22-23, Served with Health Promotion Council, Community to Home Program in Pennsylvania

*"I have found that I want to go outside of nursing in the hospital and volunteer in the community. And I realized that I can now bring more to the community with a nursing background. When the opportunity to join AmeriCorps as a Nurse Fellow was brought to my attention, I jumped on it. I serve with AmeriCorps because this position has combined my passion for helping the community with my love for nursing."*

Tara T., AmeriCorps Alum 22-23, Served with the Maternal Addiction Treatment Education & Research (MATER) at Jefferson Health, in Philadelphia, Pennsylvania

*"The Public Health Nursing Fellowship was the perfect opportunity for me. As the most trusted profession and most patient-facing sector of the health care force, nurses have the unique perspective to learn from the patient and address concerns from a holistic approach. This fellowship focuses on forming close nurse-patient bonds when discussing Social Determinants of Health and education and tools to remove or decrease barriers in the healthcare system, many of which fall through the cracks."*
